Address:	Poligono Industrial Zabale, P4C, Nave 2
City:	48410 OROZKO-VIZCAYA
Country:	SPAIN

Wim van Loon
Managing Director Nederland

This certificate has three Annexes.
Disclosure of the certificate in full is permitted.
This certificate remains valid as long as the listed product(s) maintain a continued compliance with the essential health and safety requirements of Regulation (EU) 2016/425.

General Conditions

- This EU-type examination certificate does not cover or implies conformity with the requirements of other Directives and/or Regulations than Regulation (EU) 2016/425.
- This EU Type-examination certificate is part of the Conformity Assessment procedure Module B, as described in Personal Protective Equipment Regulation.
- The validity of this EU-type examination certificate is limited to those products which are covered by the technical documentation of the manufacturer and as submitted by the manufacturer to the Notified Body for the conformity assessment.
- When the manufacturer places the products as covered by this EU-type examination certificate on the European Union market or the countries of the EEA, they are obliged to affix the CE marking to the product. The CE marking confirms conformity with the requirements of all EU harmonization legislation to which the product needs to comply. In addition to affixing the CE marking the manufacturer has to draw up and issue an EU Declaration of Conformity, declaring that the products as covered by this EU type-examination certificate are in compliance with the requirements of Regulation (EU) 2016/425 and any other EU harmonization legislation applicable to the product(s).
- Manufacturers shall ensure that a product which they have placed on the market bears a type/model, batch or serial number or other element allowing its identification, or, where the size or nature of the product does not allow it, that the required information is provided on the packaging, or in a document accompanying the product.
- If a product as covered by this EU-type examination certificate is to be modified then Kiwa shall be notified immediately of such intended modification(s). Depending on the nature of the modification(s) Kiwa may need to perform an additional assessment on the intended modification(s) and/or revised technical documentation in consultation with the manufacturer in order to either confirm the continued validity of the existing EU-type examination certificate, or to issue a revised EU-type examination certificate for those cases where the intended modification(s) affect the conformity with one or more essential health and safety requirements of Regulation (EU) 2016/425.
- Enforcement of an amending Regulation voids the validity of this EU-type examination certificate.
- In the event that standards which are referenced in this EU-type examination certificate are withdrawn or superseded or when standards are published indicating a change in the state of art and/or cover new technologies which were previously not covered by any published standard then Kiwa may need to perform an additional assessment in consultation with the manufacturer in order to either confirm the continued validity of the existing EU-type examination certificate or to issue a revised EU-type examination certificate for those cases where the conformity will be affected with one or more essential health and safety requirements of Regulation (EU) 2016/425.
- For category III PPE, this certificate shall only be used in conjunction with one of the conformity assessment procedures referred to in point (c) of Article 19 of the Personal Protective Equipment Regulation.
