Certification agreement

The applicant accepts to comply with (all clauses are referred to ISO17065:2012):

- a) to fulfil the certification requirements (see 3.7), including implementing appropriate changes when they are communicated by the certification body (see 7.10).
- b) if the certification applies to ongoing production, the certified product continues to fulfil the product requirements (see 3.8).
- c) to make all necessary arrangements for
 - 1) the conduct of the evaluation (see 3.3) and surveillance (if required), including provision for examining documentation and records, and access to the relevant equipment, location(s), area(s), personnel, and client's subcontractors.
 - 2) investigation of complaints.
 - 3) the participation of observers, if applicable.
- d) to make claims regarding certification consistent with the scope of certification (see 3.10).
- e) to not use its product certification in such a manner as to bring the certification body into disrepute and does not make any statement regarding its product certification that the certification body may consider misleading or unauthorized.
- f) upon suspension, withdrawal, or termination of certification, to discontinue its use of all advertising matter that contains any reference thereto and takes action as required by the certification scheme (e.g. the return of certification documents) and takes any other required measure;
- g) if the applicant provides copies of the certification documents to others, the documents shall be reproduced in their entirety or as specified in the certification scheme.
- h) in making reference to its product certification in communication media such as documents, brochures or advertising, the applicant complies with the requirements of the certification body or as specified by the certification scheme.
- i) to comply with any requirements that may be prescribed in the certification scheme relating to the use of marks of conformity, and on information related to the product.
- j) the applicant keeps a record of all complaints made known to it relating to compliance with certification requirements and makes these records available to the certification body when requested, and
 - 1) takes appropriate action with respect to such complaints and any deficiencies found in products that affect compliance with the requirements for certification.
 - 2) documents the actions taken; NOTE Verification of item j) by the certification body can be specified in the certification scheme.
- k) to inform the certification body, without delay, of changes that may affect its ability to conform with the certification requirements. Examples of changes can include the following:
 - the legal, commercial, organizational status or ownership,
 - organization and management (e.g. key managerial, decision-making or technical staff),
 - modifications to the product or the production method,
 - contact address and production sites,
 - major changes to the quality management system.

Use of license, certificates and marks of conformity

IDIADA Automotive Technology S.A. exercises the control as specified by the certification scheme over ownership, use and display of licenses, certificates, marks of conformity, and any other mechanisms for indicating a product is certified.

The applicant will not use incorrect references to the certification scheme, or misleading use of licenses, certificates, marks, or any other mechanism for indicating a product is certified in documentation or other publicity, if found this will lead in legal action.
